Miriam Lachs

DATA CONSULTANT

PROFESSIONAL EXPERIENCE

Slalom, Atlanta, GA
Consultant | June 2022–Present
Associate Consultant | February 2021–June 2022

- Worked with a variety of businesses across industries to address challenges and build solutions for their data driven problems

- Primary Data Engineer on the team for a major US airline to stand up a data pipeline for the whole lifecycle of their aircraft using Pyspark and AWS Glue

- Data Engineer and Application Developer for a regional telecommunications provider. Developed, created and enhanced client facing applications working on both backend data movement and UI functionality. Also created and automated Support Portal dashboard and built out a new Log system in the database

- Data Visualization Specialist and Data Engineer for one of USA's largest utility holding companies to build a new dashboard in PowerBI that allowed their clients to track hourly CO_2 equivalent emissions and the effect of special renewable energy programs on the clients' carbon goals

- Data Architect and Strategist for a major US airline to help transition an old manual data process flow used to track chemical and material usage for environmental reporting to a newly designed automated pipeline, reducing spend and time and improving data quality by eliminating the outsourced manual processing

eScholar, White Plains, NY
Professional Services Intern | September 2020–February 2021

- Became company SME in Amazon Quicksight to help transition projects from Tableau and support new opportunities

- Built user friendly automation system for specific cross-organizational data movement process using Python

- Supported and investigated errors in statewide data remediation project

- Worked within customer support to help move along/solve help-desk tickets

Perkins Eastman Architects, New York, NY
Business Intelligence Intern | June 2019–September 2019

- Developed a pipeline Marketing Report to help track opportunities

- Used R to create new reports, update outdated scripts and automate presentation file conversion

- Worked on making a new QA/QC report for project closeout
